MUSIC MANAGERS ADVISORY OFFERING

Drawing on our latest research, **'The Age of Social Influence'** digital media and social influencers have dramatically impacted the way brands engage and work with talent. This presents Music Managers (and the talent they represent) with the following opportunities and challenges:

Opportunities:

Talent-led marketing continues to deliver strong ROI

Music Artists are most popular (traditional talent) choice for brand collaborations

Brands looking to Talent Managers to provide more meaningful data & insights – 84% of marketers agree that identifying talent that is a good 'brand fit' is a hard, time-consuming task

Challenges:

Digital Influencers are the most popular (overall) choice for brand endorsements

Social Media is putting pressure on established music artists

Relevancy of social media following is of upmost importance to brands

Brands looking to emerging talent for brand endorsement deals ahead of established musicians

Music Managers must have access to deep data & insight to win partnership deals and demonstrate 'true value'

THE TWO-WAY FIT

Drawing on our data, insights and analysis with unique input from our Editorial and Research teams, we are able to help Music Managers with key challenges:

1 Data/insights to win 'right fit' brand collaborations

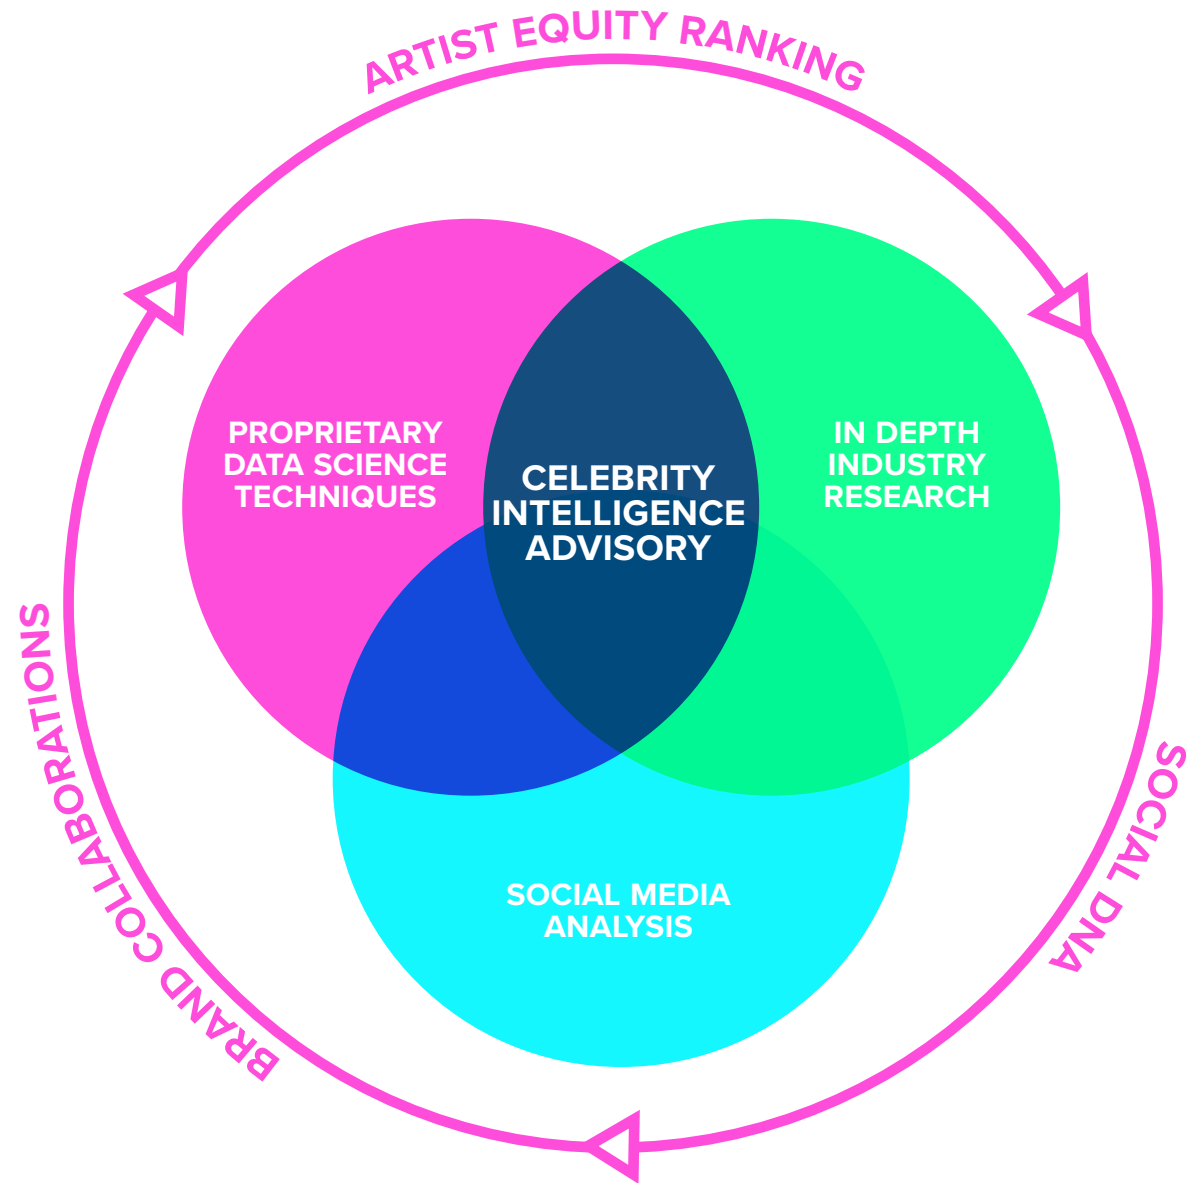

2 Measuring/tracking 'true value' of established artists

HOW WE ARE DIFFERENT

With over 25 years' experience, Celebrity Intelligence is able draw upon expert industry research & social media analysis combined with our own proprietary data science techniques to deliver an unrivalled advisory service specific to the music industry.

Right Fit BRAND COLLABORATIONS

★ celebrity intelligence

KEY:

ARTIST A

ARTIST B

HIGH STREET FASHION BRAND

Objective:

Matching an established Music Artist with a High Street Fashion Brand looking for a new spokesperson to connect with a younger female audience

Solution:

Conducted a deep level analysis reviewing brand & artist's geographical awareness, appeal, perceived values and social audience demographics

Mapped data in order to build up a holistic picture of what the brand stood to gain from collaborating with the artist

Results:

ARTIST A's values & interests clearly aligns strongly with the High Street Fashion Brand.

The collaboration was successful with the Artist allowing the brand to resonate even more strongly with their desired audience.

ARTIST B's reach is far smaller across desired values. Unsurprisingly the brand chose not to pursue this opportunity.

Kendrick Lamar & Nike

OUR ANALYSIS & INSIGHTS IN ACTION

In December, American Rapper **KENDRICK LAMAR** announced an unreleased pair of **NIKE CORTEZ** trainers on Instagram. With an Instagram audience nearly 10 times the size of Kendrick's what does Nike stand to gain from this collaboration?

A deep dive comparison into the Instagram following of **@NIKE** & **@KENDRICKLAMAR** shows the potential new audiences Nike can reach partnering with the rapper.
